- Visual Studio Code
- MQTT
- ESP32
- IntelliJ IDEA
- REST API Development

Soft Skills

- Team Leadership
- Problem Solving
- Communication
- Critical Thinking
- Project Coordination
- Quick Learning Ability

CAREER OBJECTIVE

University of Computer Studies (Mandalay)

Final-year

Computer Science student at The University of Computer Studies (Mandalay) with a strong interest in software development and web technologies. Experienced in developing web applications through academic and team projects, including leading project teams from planning to implementation. Seeking an internship opportunity to gain practical industry experience, enhance technical skills, and contribute to real-world software development projects.

EXPERIENCE

Academic Projects

StudySync (Group Project)

2024

Role: Team Leader

Technologies: PHP, HTML, CSS, JavaScript, MySQL

- Developed a web-based application using PHP.
- Led project planning and coordinated team activities.
- Designed and implemented application features.
- Participated in database design and testing.

Smart Home Automation Prototype

2025

Role: Team Leader

Technologies: C#, SQLite, MQTT, ESP32

- Led a team of three students in developing a smart home automation system.
- Developed a Windows-based application for remote monitoring and control of household devices.
- Implemented real-time communication between the application and IoT devices using MQTT.

Restaurant Ordering and Management System (ROMS)

2026

Role: Team Leader

Technologies: Spring Boot, Java, HTML, CSS, JavaScript, MySQL

- Led a development team in building a restaurant ordering and management system.
- Designed and implemented backend functionalities for menu management, order processing, table reservations, and inventory tracking.
- Developed and integrated RESTful APIs between front-end and back-end components.
